Press Release

Rekow & Stull Orthodontics Awards Scholarships

Local Orthodontist Dr. Jeri Stull announces this year's recipients of the Rekow & Stull Orthodontics Scholarship to three area high school seniors.

Fort Thomas, Kentucky June 22, 2012: Dr. Jeri Stull would like to thank all 98 students who took the time to complete the scholarship application requirements from the Seventh Annual Rekow & Stull Orthodontics Scholarship Program. Each year Dr. Stull offers three \$1,000 scholarships to graduating seniors from the local area. This opportunity is available to any student in Boone, Kenton, Campbell, Pendleton, and Bracken counties as well as all orthodontic patients of Dr. Stull in Kentucky, Ohio, and Indiana. Information on the annual scholarship program can be obtained through the practice website, www.OrthoSmileTeam.com. Since the scholarship program began in 2005, we are very pleased to have such a considerable number of qualified applicants.

"It is so amazing to know how many of our local high school seniors have accomplished so much in their young lives.", Dr Stull commented. "The accomplishments that these young people have achieved are extraordinary. All 98 of these students displayed amazing ambition and determination both in and out of the classroom." On behalf of Dr. Jeri Stull Orthodontics we proudly congratulate the three following students who will receive \$1,000 to help with their expenses as they enter college this coming fall.

Dominique Wade: Newport Central Catholic High School

Dominique has achieved much success in her high school career with a strong focus on athletics. She was the team captain and award winning player of the Varsity Soccer Team. She was also a captain of the Varsity Cheerleading Squad. Dominique maintained exemplary grades in all of her accelerated classes and was on the All A Honor Roll through her high school career. Her participation in many community service activities, including the YMCA Leaps and Bounds Program for special needs children and as a volunteer at the Ronald McDonald House made her an ambitious, well-rounded candidate.

She is also a member of the National Honor Society. Dominique plans to attend the University of Kentucky and pursue a career in medicine.

Nick Dill: Highlands High School

Nick is one of the most talented and creative applicants that has completed the scholarship submission process. He maintained a remarkable schedule of accelerated classes in his senior year but it is his astounding accomplishments in the performing arts that truly make him a star. Nick has performed in a long list of shows as both a dancer and behind the scenes as a choreographer. He not only performed at Highlands High School and in local theater, he had the distinct experience of performing with the Cincinnati Ballet Company in several major productions.

Nick plans to attend New York University and study the performing arts with a focus on dance. His goal is to join a Broadway cast as a dancer. We are confident that with his talent and ambition, we will someday see Nick's name in lights!

Claire Reinert: Notre Dame Academy

Claire has not only maintained an outstanding GPA in her demanding schedule of accelerated classes, she has found time to be a strong leader at her school and in her community. Her impressive list of honors and awards is one of the most extensive and diverse that we have had the pleasure of reviewing. Claire also has an impressive background in working as a member of the Regional Youth Leadership program with a strong commitment to her school and community. Her community service touched many other causes, including the Welcome House working with homeless families and as a volunteer at the St. Charles Nursing Home. She also found time to become one of the top players on the Golf Team.

Claire has been accepted to several Universities and plans to study Chemical Engineering.
